

<Lectureship Award for Asian and Oceanian Photochemist>

年度	年月日	授賞者	授賞研究
2006	2006/9/11	Prof. Vivian Wing-Wah Yam (China)	Luminescent Metal-Based Molecular Materials From Design to Assembly and Functions
2007	2007/9/27	Prof. Sang Kyu Kim (Korea)	Observation of the Intramolecular Orbital Alignment in the Photodissociation of Thiophenol: Exploration of Upper Electronic States and the Effect of Chemical Modifications
2008	2008/9/12	Prof. Wonyong Choi (Korea)	Photochemical Conversion of Environmental Pollutants in Heterogeneous and Homogeneous systems
2009	2009/9/17	Prof. Lei Jiang (China)	Bio-Inspired, Smart, Multiscale Interfacial Materials
2010	2010/9/9	Prof. Jincai Zhao (China)	Photodegradation of Dye pollutants on TiO ₂ under Visible Irradiation and Application to Green Chemistry
2011	2011/9/7	Prof. Chien-Tien Chen (Taiwan)	Doubly Ortho-linked Triarylethene, Diarylamine, and Spirofluorene Hybrids for Chirochromic Optical Switch and Optoelectronic Applications
2012	2012/9/13	Prof. Jye-Shane Yang (Taiwan)	Effect of Hydrogen Bonding on the Excited-State Deactivation of GFP-like Chromophores
2013	2013/9/12	Prof. Jonathan Hobley (Singapore)	Photochemistry, Imaging and Spectroscopy in Interfacial Monolayer Systems
2014	2014/10/12	Prof. Wai-Yeung Wong (Hong Cong)	Photofunctional Metallopolynes and Metallophosphors: New Multifunctional Materials with Emerging Applications
2015	2015/9/10	Prof. Yen-Ju Cheng (Taiwan)	Development of Functional Organic and Polymeric Materials for Photovoltaic Applications
2016	2016/9/7	Prof. Edwin K. L. Yeow (Singapore)	Ultralong Perovskite Microrods
2017	2017/9/5	Prof. Achikanath C. Bhasikuttan (India)	Molecular Recognition in Biomolecular Assemblies: A Photochemical Perspective
