

Preface

Emotion & Deep Impression

(Research Institute for Electronic Science, Hokkaido University)

Nobuhiro OHTA56

Reviews

Molecular assemblies of amphiphiles regulated by photochemical reactions

(Department of Chemical Engineering, Nara National College of Technology)

Ryoko UDA57

Photochromic Behaviors of Transition-Metal Complexes

(Department of Chemistry, University of Tsukuba)

Tomoya Ishizuka, Takahiko Kojima65

Electronic properties and photovoltaic characteristics of ryleneimide compounds bearing multidimensional structures

(The Institute of Scientific and Industrial Research, Osaka University, JST-PREST)

Yutaka IE, Yoshio ASO73

Topics

Influence of surface local structure on photo-induced oxidation reaction of water and competitive sub-reactions on single crystal TiO₂ surface

(Graduate School of Engineering Science, Osaka University)

Akihito IMANISHI81

Imaging of Hypoxic Cells and Tissues Using Phosphorescence of Iridium Complexes

(Division of Molecular Science, Faculty of Science and Technology, Gunma University)

Toshitada YOSHIHARA and Seiji TOBITA86

Study on the molecular-assemble process of organic compounds probed by fluorescence spectral change in polymer matrices

(Faculty of Education, Shinshu University)

Fuyuki ITO90

Essay

Laser Chemistry, Global Warming, Thorium Atomic Energy

(Toyota Physical and Chemical Research Institute)

Nobuaki Nakashima94
