

Preface

Assessment of Japanese Universities in Chemistry Based on World University Ranking
(Graduate School of Engineering, Osaka University)
Shunichi FUMUZUMI 121

Reviews

Plasmonic photocatalysts —design, syntheses, applications—
(Faculty of Science and Engineering, Kinki University)
Atsuhiko TANAKA, Hiroshi KOMINAMI 122

Photochromic Behaviors of Transition-Metal Complexes

(Research Institute for Ubiquitous Energy Devices, AIST)
Kenji KAMADA 130

Artificial Light Harvesting System Based on Supramolecular Systems

(Tokyo Metropolitan University, Graduate Course of Urban Environmental Sciences)
Shinsuke TAKAGI, Tetsuya SHIMADA 138

Topics

Laser-induced agglomeration and fusion of gold nanoparticles
(Institute for Materials Chemistry and Engineering, Kyushu University)
Takeshi TSUJI 146

A Discovery of an "Excited State C–C Bond Cleavage–Emission" of Methylene-cyclopropane Derivative

(Graduate School of Engineering, Osaka Prefecture University)
Yasunori MATSUI, Taiki KIDO, Eisuke OHTA, Hiroshi IKEDA 150

Essay

Goethe and Heisenberg

(College of Engineering, Nihon University)
Shozo TERO 154
