

Preface

“Photochemistry” and co-creation in the photochemical related societies

(Fellow, HORIBA Ltd., HORIBA STEC, Co., Ltd.)

Kiyooki HARA61

Reviews

Recent trends in enantioselective organic photochemical reactions

(Faculty of Engineering, Yokohama National University)

Yasushi YOKOYAMA62

Active control of crystal nucleation and growth mode by femtosecond laser

(¹Osaka University, ²Kyoto Prefectural University, ³Saitama University)

Mihoko MARUYAMA^{1,2}, Hiroshi Y. YOSHIKAWA³71

Chiral sensing using induced circularly polarized luminescence

(Graduate School of Science and Engineering, University of Toyama)

Munetaka IWAMURA, Koichi NOZAKI78

Topics

Non-linear fluorescence photoswitching in fluorescent diarylethene nanoparticles

(Graduate School of Science & Technology, Kumamoto University)

Sanae ISHIDA, Tsuyoshi FUKAMINATO86

Spin exchange model for singlet fission and triplet energy transfer

(Graduate School of Science and Engineering, Saitama University)

Tomoaki YAGO90

Plasmonic properties of copper nanostructures and search for their suitable applications

(Graduate School of Science and Technology, Nihon University)

Kosuke SUGAWA94
