

## Preface

The Japanese Photochemistry Association (JPA)

(President, The Japanese Photochemistry Association; School of Science, Tokyo Institute of Technology)

Osamu ISHITANI ..... 1

## Special Feature

Mr. Akira Yoshino, a graduate student of Kyoto University

(Professor Emeritus, The University of Electro-Communications)

Mamoru OHASHI ..... 2

## Reviews

Activatable photosensitizer of photodynamic therapy of cancer

(Gunma University)

Hiroaki HORIUCHI ..... 4

Photo/biocatalysts hybrid system for C-H bond activation and building C-C bonds from CO<sub>2</sub>

(<sup>1</sup>Graduate School of Science, <sup>2</sup>Research Center for Artificial Photosynthesis, Osaka City University)

<sup>1</sup>Takayuki KATAGIRI, <sup>1,2</sup>Yutaka AMAO ..... 12

Turn-on mode fluorescent diarylethenes for super-resolution fluorescence microscopy

(Department of Chemistry, Rikkyo University)

Masakazu MORIMOTO, Masahiro IRIE ..... 20

## Topics

Reaction control of photogenerated charge separated states based on their spin dynamics

(Department of Science, Niigata University)

Tomoaki MIURA ..... 28

Selective inactivation of bacteriophage by photocatalysis

(Institute of Agriculture, Tokyo University of Agriculture and Technology)

Kazuya NAKATA ..... 32

Development of multifunctional hydrogen-bonded organic frameworks

exhibiting permanent porosity and fluorescence properties

(Graduate School of Engineering Science, Osaka University)

Ichiro HISAKI ..... 36

Essay

..... 40

Reports

..... 43

Circulars

..... 46

Announcements
